

High Touch High Tech®

Science Experiences That Come To You™

Senior Science Catalog

- **Chemical Reactions©**
Roll up your sleeves as we make really fun, entertaining and safe chemical reactions. Watch colors separate right before your very eyes! Make your very own "Space Mud" to keep!
- **Edison's Workshop©**
Enter Thomas Edison's laboratory as we discover electricity. Have fun as we learn all the "hair raising" facts. Make an electroscope and more!
- **Get Buggy©**
Discover the creepy, crawly world of insects. Have fun as we use our bug eye viewers. Make a spider web to keep and much more!
- **Global Fever©**
Get ready to learn about global warming and climate change. Discover why sea levels are rising. Have fun as we calculate our carbon footprint.
- **Gold Rush©**
Step back in time to the days of the Old Prospectors! Pan for gems and keep what you find! Become a geologist as we classify our gemstones.
- **Good Vibrations©**
This program sounds like so much fun! Discover sound waves, wavelengths, and frequencies. Make salt dance and more!
- **I Need My SPACE©**
Explore the universe, the solar system and our planets. Touch a nebula! Discover how old you are on other planets!
- **Matter Matters©**
Matter really does matter as we explore solids, liquids and gases in a fun and entertaining way! Join the molecule races!
- **Power Of Light©**
Have fun as we discover light, energy and our atmosphere!
- **Smarty Plants©**
Discover the wonderful world of plants. Turn your very own flower a different color as we learn about nutrient transportation. Have fun as we learn about diffusion and make your own terrarium to keep!
- **Volcanoes©**
This program is erupting with FUN! Make sure your goggles are on, as our volcanoes erupt really high!
- **Weather or Not©**
Discover thunder, lightning, and much more! Have fun as we go ice cube fishing!
